

Chesapeake Haven Shoreline Restoration Project

To our CHHOA members. Please see the update below from DNR regarding the grant application process. We will continue to update as we receive further information.

Thank you,

CHHOA Board

June 24, 2020 update from DNR.

RE: Chesapeake Haven Shoreline Restoration Project

We continue to monitor and examine the ongoing developments and impacts of the COVID-19 outbreak in Maryland and nationally. The unprecedented nature of this pandemic may have associated disruptions that could impact current and future awards through the Grants Gateway. Regarding the recent Fiscal Year 21 solicitation, we have completed the scientific and technical review and have prioritized projects for review and approval. However, as the situation concerning fall-out from COVID-19 on future revenue is dynamic, there may be unavoidable delays in announcing and making awards. We are working closely with our Office of Budget and Management in assessing current and future revenue projections and will update this guidance as circumstances change.

We are also working with our federal partners and anticipate updates by late summer for federally supported Outcomes #2, #3, and #4. We appreciate your continued patience and partnership.

DNR Chesapeake and Coastal Service”
